Cropping/ Cutting Out Complex Images - Paint Shop Pro (PSP) 7 Tutorial

With this cropping complex images Paint Shop Pro (PSP) tutorial, you can crop(cut out)almost anything, no matter how difficult. This tutorial was written for Paint Shop Pro (PSP), but can probably be used for other versions as we

1

Select the freehand selection tool  , then the point to point sett to give you more control.

2

Zoom  in so you can see what you want to cut, then single clic around the edges until you have completed the selection, and ther double click to end it.

3

Now copy the image (Ctrl-C), and then paste it (Ctrl-L) onto the background you want.

4

You have now just changed the background of an image! Use the eraser to clean it up if you want. Happy Cutting!
